

Dear UK Members of OIML TC 8/ SC 5 Water Meters,

The Secretariat of OIML TC 8/ SC 5 would like to ask your opinion (by return e-mail vote form attached) on whether the OIML D7 - The evaluation of flow standards and facilities used for testing water meters, should be:

- a) **revised**
- b) **confirmed, or**
- c) **withdrawn.**

An investigative report from OIML D7 Working Group is included to help aid your decision.

The documents attached:

1. OIML D7 Working Group Investigative Report
2. Vote form

Please send your comments, if any, in support of your option, in a separate attachment or in the body of your return e-mail.

We would be very grateful to you if you could reply as soon as possible and **by the 10<sup>th</sup> of September 2009 at the latest.**

With best regards,
